

How to download and attach Core Restore forms

Please note that the fillable forms process works best with Google Chrome or Microsoft Edge. Additionally, fillable forms do NOT work on mobile devices!

- Click on the applicable fillable form to complete.
- Your browser will open a stand-alone window with the applicable fillable form in view.
- Once the form(s) are completed, click on the **download**  button (if using Chrome) on the upper right-hand side of the screen. If you get a pop up asking how to save the forms, choose **“with your changes”**

- In most instances, by default, the downloaded forms go into your computers download folder. If they do not, you can always change the path as to where downloaded files are going.
- Once all applicable form(s) are completed and downloaded to your computer, you will then fill out the demographic information on our Forms page:

Date *

Client Name *

First

Last

Client Phone Number *

Client Email *

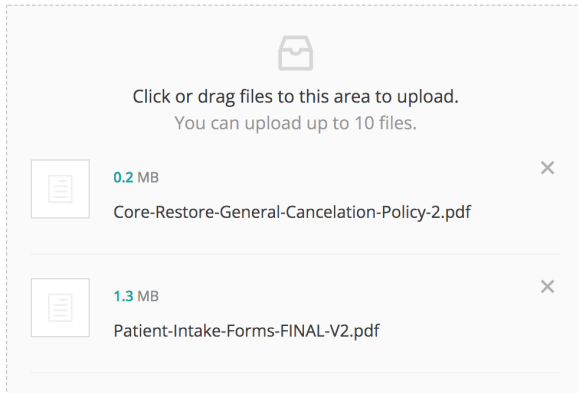

- After completing the demographics above, you can (a) click anywhere inside the diagram below to open your computers Finder/File window and navigate to your Download Folder thus allowing you to attach the completed Core Restore Intake Forms, or (b) drag and drop completed forms into the box below directly from the folder on your computers where the download forms went. When successfully attached, you will see the screen below:

Patient Intake Forms *

Please upload the forms once you've filled them out and saved them.

Patient Intake Forms *

Please upload the forms once you've filled them out and saved them.

- After attaching the forms, click on “**Submit**” in order to send them to our office. You’ll see a green box confirming that the forms were sent to us.

Thanks for filling in the client intake form. It has been received and a member of the Core Restore staff will confirm with you shortly.
